

*Steve and Jon,*

*The quality of the craftsmanship continues to impress us especially when looking at other new homes our friends have built! It was obvious that you had strong relationships with the subcontractors you hired. This is evident throughout the house but especially in the details around the kitchen design, tile work, trim and window work. I give DKM Custom Homes the highest of recommendations - integrity and fairness to its clients, a robust capability, conscientious project managers and administration, talented staff, dependable and realistic attitudes.*

*The level of quality, the craftsmanship and attention to detail is magnificent.*

*We want to thank you again for building our dream home. It was a joy to work with you guys.*

*Carl & Anne Garrison*
