

Dear Jon, Steve and Chris ,

Ray and I would like to thank you for the time, care, and patients you showed towards us as we completed the massive remodel of our home. Each of you brought a special quality and expertise that enabled us to have the home of our dreams. Even though the house had good “bones”, with your help and vision it turned out better than what we could have hoped for.

I was always amazed by the number of workers that were on the job site daily, and how quickly the project was completed. Chris, a special thank you for making me feel comfortable enough to ask the hundreds of questions I had and for making sure everything ran smoothly. You were ALWAYS there and made sure things were done right.

Steve, you did an exceptional job with the layout of the house, adding a staircase, raising the upstairs roof, etc. Your knowledge and ability to see our vision and make it a reality is so much appreciated! When others said it couldn't be done you found a way to do it. You are truly a very talented, skilled, and above all honest individual.

Jon, it couldn't have been done without you keeping me on budget, helping me find the materials needed, and motivating the whole crew. People who come into my home always comment on the workmanship and quality that you and your team provided.

Above all, we thank you for still being a phone call away if we need you for anything.

Sincerely,
Ray and Judy McGovern
