

Dear Jon, Steve & Chris

This is the third home we have built. We had a pretty good idea what we wanted, but DKM Custom homes was a wonderful source of new ideas that made “special”, even more so. DKM is a great crew to work with...patient, knowledgeable, trustworthy, attention to detail...and follow-up. They only work with the best subcontractors. All of the awards from their peers speak volumes---even the pros recognize excellence. Quality, quality, quality...did I mention quality workmanship? Trust them. They will take care of you. They even inspect your home for you before the one year builder’s warranty expires (previous builders only worked our list). Last, but not least, it’s been seven years since we moved in....and DKM is still here for us when we need some maintenance help. You are joining a family.
